PROFESSIONAL SKILLS

React.js	TypeScript	React Native	REST API	Problem Solving
JavaScript	HTML/CSS	Next.js	GraphQL	

WORK EXPERIENCE

Frontend React Developer (part-time for UK startup)   2023 April – 2023 July
Indico Labs, London, UK (remote)

- I've built a new page according to the redesign plan, what helped to make the data selection process to be visually easier and logically more effective.
- Fixed multiple significant bugs across the web app and improved the code for better performance and readability. This helped the project to get closer to the official release.

Frontend Developer / React Native developer   2022 April – 2023 January
Digital Basis, Melbourne, Australia (remote)

- On this role my main contribution was the React Native mobile application for the Australian client which operates in agricultural field. I've built the mobile application from the zero up to the MVP stage. The final version included all screens according to the provided design and all the functionalities. More information about this mobile app can be found on my portfolio website.
- Except working on the mobile app, I also helped to improve some of the existing web products using primarily React.js.

WORK EXPERIENCE (CONTINUED)

Frontend React Developer   2021 October – 2022 April

- [Fitness Web App]

Tech Stack: React, React-Hook-Form, TypeScript, Styled Components
Short Description: My work was mainly focused on adding new layouts and adding new functionality such as new submission of new forms and connecting it with API.

- [MMORPG browser game]

Tech Stack: React, TypeScript, CSS
Short Description: Restructuring styles of the main interface of the game. Daily interaction with TypeScript and CSS code for fixing outdated design and adding new functionality.

Frontend React Developer   2020 July– 2021 October

Sapa Software, Astana, Kazakhstan

- Working on a module of a large government-oriented project in a team of analysts, programmers, etc.
- I modify the legacy code inherited from the lead developer, fixing bugs, adding new features
- Daily work with React, SCSS, Ant Design, GitLab
- Regular work with API requests
